Objective

MCA student and Python Full Stack Developer with experience in building scalable web applications using modern frameworks. Beginner-level knowledge in TensorFlow and OpenCV, with a strong interest in machine learning and computer vision. Passionate about problem-solving, continuous learning, and writing clean, efficient code

Skills

- Python
- MySQL
- Attention to Detail
- Django
- PostgreSQL
- Time Management
- Java
- Git, GitHub
- MongoDB
- Collaboration & Teamwork

Projects

Poolmate - Web Application for carpooling
Built a Django-based web app enabling users to offer/book rides, with login/signup, ride listings, and trip history stored using SQLite. Designed a user-friendly interface using HTML, CSS, and Bootstrap.

Pro Lens - E - commerce platform for glasses
Built a Django + PostgreSQL e-commerce site for selling glasses, with features like user authentication, product listings, shopping cart, and order tracking. Designed responsive UI and implemented basic checkout flow.
