PROFESSIONAL SUMMARY

Software Developer with strong expertise in Python, Django, Machine Learning, Artificial Intelligence, Streamlit, and Full-Stack Web Development. Experienced in designing, developing, and deploying scalable web applications, and database-driven systems. Proficient in database technologies including PostgreSQL, SQLite, with a solid understanding of database design, SQL queries, normalization, and query optimization. Skilled in computer vision, Git, and software development best practices. Strong analytical and problem-solving abilities with a passion for building efficient, scalable, and user-focused software solutions while continuously learning emerging technologies.

EDUCATION

- Master of Computer Applications** 2024 - 2026
Marian College Kuttikanam (AUTONOMOUS)
Kuttikanam, Idukki, Kerala
CGPA : 7.98
- Bachelor of Computer Applications** 2021 - 2024
St . Antony's College
Peruvanthanam, Idukki, Kerala
CCPA : 6.64

INTERNSHIP

December 2025 - February 2026

CodeWild Tech, Trivandrum

- Created UI/UX designs and prototypes using Figma and converted them into interactive, responsive web interfaces using React.js.
- Created custom UI elements using SVG graphics, React Icons, and advanced CSS techniques including Flexbox, positioning, and animations.
- Implemented responsive layouts with media queries and optimized the interface for various screen sizes and device resolutions.
- Translated design mockups into pixel-perfect user interfaces while debugging and resolving layout, styling, and cross-device compatibility issues.

Technologies Used : React.js, HTML5, CSS3, Git and Github, Figma (Design IMplementation)

TECHNICAL SKILLS

Languages : Python, SQL, HTML, CSS

Frameworks : Django, Django REST Framework (DRF), React.js, Bootstrap

Libraries : TensorFlow, OpenCV, NumPy, Pandas

Databases : PostgreSQL, SQLite

Tools & Platforms : Git, GitHub, VS Code, PyCharm, Figma

PROJECTS

- **Trackin**

Developed a web-based attendance management system that enables administrators, staff, and students to efficiently manage and monitor attendance records. The application automates attendance tracking, report generation, and user management through a secure and user-friendly interface.

Tech Stack : Django, React.js, PostgreSQL, HTML, CSS, JavaScript, Bootstrap.

- **Poolmate**

PoolMate is a Django-based carpooling web application that enables users to publish, search, and book shared rides. The platform allows ride providers to manage trip details and passengers to request rides based on their preferred routes. It includes features such as ride management, booking requests, notifications, user reviews, and profile management.

Tech Stack : Django, Python, SQLite, HTML, CSS, Bootstrap

- **Silent Talk**

Built an AI-based web app that recognizes American Sign Language (ASL) gestures in real time using MediaPipe, OpenCV, and an LSTM model (TensorFlow/Keras) with 70%+ accuracy. Developed a Streamlit interface with secure SQLite authentication, enabling smooth 30 FPS gesture detection to enhance accessibility for the hearing-impaired.

Tech Stack : Python, Django, Streamlit, OpenCV, MediaPipe, Machine Learning, PostgreSQL.

- **Pro - Lens**

Developed a Django-based e-commerce platform for purchasing eyewear, featuring product search, cart management, order processing, payments, and user profile management. The system includes an admin panel for managing products, categories, and users.

Tech Stack : Python, Django, Streamlit, OpenCV, MediaPipe, Machine Learning, PostgreSQL.

SOFT SKILLS

- Teamwork and Collaboration
- Communication Skills
- Adaptability
- Documentation Preparation

CERTIFICATIONS

- **100 Days of Code : The Complete Python Pro Bootcamp** (Udemy)
- **Machine Learning with Python** (ML0101EN, provided by IBM)
- **Data Analysis with Python** (DA010EN, provided by IBM)
